

## Montana Contractors Association

### **Board invites members to sign onto letter to Congressional delegation**

After repeated failed attempts to convince federal agencies to implement fair, open, and objective contract award procedures, the MCA Board of Directors has approved sending a letter to Montana's congressional delegation requesting a joint meeting to discuss solutions. All voting members are invited to sign on to the letter ([click here](#)) to read it. If you would like your name and company name listed at the bottom of the letter, please reply to this email by 9 a.m. Wednesday. We will keep members updated on progress.
